## Pump head PUMPMAC

Dongfeng Cummins-DCEC pump engines are highly recognized by customers for their strong power, ultra-low fuel consumption, high reliability and low maintenance costs.

Dongfeng Cummins-DCEC pump drive engines covering displacement of 3.9 to 13L. with power range from 36 kW to 429kW. Dongfeng Cummins-DCEC provides the best customized clean power solution for fire pumps, drainage pumps, irrigation pumps and other fields.

While introducing the international advanced technology, Dongfeng Cummins focusing on customized engines and secondary development of pump engines for the global market to further meet the requirement of global customers and become a preferred engine manufacturer in the global market. With advanced design and excellent manufacturing, it adapts to various severe working conditions and can be used in fire-fighting, municipal administration, agriculture, oil and gas and other fields.

Low fuel consumption that effectively reduces operating costs.

Less maintenance cost and time greatly reduce losses caused by downtime during peak seasons.

### Advantages of Industrial Engine

Powerful and efficient- Compared with engines of the same type, both the torque reserve coefficient and the power are higher, which meet complicated operating conditions.

Better environmental adaptability-After extensive tests in harsh environment such as plateau, high temperature, high humidity and low temperature, it adapts to extreme operating conditions

Lower noise through optimization of the control strategy and application of noise reduction options

The "heart" of Cummins engines preserves higher value of your equipment.

The 2900-rpm engine is directly connected to the pump, meeting the performance requirements of high-speed pumps and reducing the matching cost.

### Engine series:

- 4BT3.9 | 36-97 KW
- 6BT5.9 | 96-183 KW
- 6CTA8.3 | 163-190 KW
- 6LTAA8.9 | 179-264 KW
- QSB3.9 | 36-85 KW
- QSB5.9 | 96-120 KW
- QSB6.7 | 118-170 KW
- QSL8.9 | 206-235 KW
- QSZ13 | 286-429 KW
- QSZ14
- M15CS4
